#### PROGRAM PHILOSOPHY

Cortland Enlarged City School District (Cortland) recognizes the importance of continuous, systemic support of the professional learning process for all staff. When adults participate in continuous professional learning, students are better prepared to graduate from high school with the skills and knowledge needed for a successful transition to college and career choices.

#### PROGRAM PURPOSE

As a result of this philosophy, the Cortland Mentoring Program is developed to meet the NYS Standards for Effective Mentoring<sup>1</sup>, align with both the NYS Teaching Standards and Charlotte Danielson's Framework for Teaching, and engage new staff in a mentormentee process that supports:

- transition between teacher preparation programs or prior education programs and the new contexts of Cortland;
- professional learning as an essential component of a highly-effective career path;
- collaboration as a Cortland expectation in a systems approach to learnerfocused practices that support student cognitive and emotional growth;
- selection and professional learning of a collaborative cadre of mentor teachers;
- allocation of resources that support the Cortland Mentor Program as an induction practice of Cortland professional learning systems.

#### PROGRAM OVERVIEW<sup>2</sup>

Cortland supports the continued professional learning of staff members who are new to the district through its Mentoring Program. The purpose of the Mentoring Program is to link new staff members with veteran staff members who provide new staff with assistance and guidance. During the mentoring period, ongoing collaboration will facilitate the growth of the new staff member for the purpose of achieving effective and highly effective levels of professional practice during the first few years of employment with the district. The impact of this program will result in more effective transition to the Cortland environment for new staff, increased retention of new staff, continued professional learning for mentoring staff, and equitable learning opportunity for students. The Cortland Mentoring Program provides a mentoring partnership for new staff members who are employed under the provisions of the teacher contract.<sup>3</sup>

See Appendix A: NYS Standards for Effective Mentoring

<sup>&</sup>lt;sup>2</sup> Cortland Mentoring Program references the *Foxborough Public Schools Mentoring Program* as an exemplar provided by NYSED, 2014

<sup>&</sup>lt;sup>3</sup> Cortland nurses embed alternate mentoring practices for new school nursing staff.

#### **New Instructional Staff Mentoring Program**

During the first year of employment with the Cortland district, the Mentoring Program is designed to build collaboration among the cohort of new staff members and support the specific learning of new staff members on both an individual and a departmental level.

For teachers, the Cortland Mentoring Program focuses on the following:

- Annual Professional Performance Review (APPR) criteria
- Emotional and personal support
- Orientation to the school, policies, and procedures

For Pupil Personnel Staff (PPS) staff members, the Cortland Mentoring Program focuses on the following:

- Professional Growth and Assessment Plan (PGAP) criteria
- Emotional and personal support
- Orientation to the school, policies, and procedures

#### **Confidentiality Statement**

It is important for the new staff member to be able to discuss problems openly with the mentor so that they may be addressed in a timely and informed manner. The mentor is not an evaluator of the new staff member; she or he is a collaborator with the new staff member. As a result of this relationship, the mentor is not expected to share specific written or verbal information with any evaluator or administrator.

#### PROCESS FOR MENTOR SELECTION AND MENTEE-MENTOR PAIRING

During the first week of May, the building principal will develop a list of mentoring positions that may be available during the following school year. By the end of the first week in June, Principals and Department Leaders, Grade Level Leaders, or program specialists will collaboratively select mentors that may be paired with potential new staff members.

#### **Mentor Qualifications**

The following qualifications will be used in the selection of mentors:

- A minimum of five (5) years of experience, with tenure in the Cortland district.
- Voluntary participation in the mentor training program.
- Accessibility to the new staff member and a commitment to support the mentee.
- Knowledge of and adherence to the relevant program standards and expectations.
- Experience with and understanding of the Danielson Framework for Teaching or other relevant program criteria.
- Ability to support the cognitive and emotional learning needs of diverse learners.
- Knowledge of the resources of the school, district, and community.

- Willingness to invest time to develop mentoring skills and participate in the program for the duration of the mentoring relationship.
- Ability to maintain a confidential relationship.

#### **Mentor-Mentee Pairing Factors**

The following factors are helpful in determining a good match of mentors with new staff:

- Program experience
- Grade or building level
- Content or program area
- Availability of common time for collaboration
- Physical proximity of work location
- Complementary program work style and philosophy
- Common interests

#### **Mentor-Mentee Relationship**

It should be stressed from the onset that no match is permanent and can be changed at the request of either the mentor or the mentee. A mentoring relationship that is not supporting increased learning should not be considered a failure, but rather a match that is not supportive of the mentee's learning due to such factors as proximity, availability, or style.

#### **Mentor Teams<sup>4</sup>**

Just as the Mentor Program goals include opportunity for new staff to develop a cohort relationship, as the list of trained building or program mentors develops, the Mentor Program goals include development of teams of mentors within buildings and/or programs. The relevant team of mentors will be available to support one another in the mentoring process and will also be available to support the learning of new staff members within the Team's building or program. The team mentoring approach provides differentiated and supplemental support for new staff members as well as collaborative support for the mentors. Increased opportunity for specific support increases the new staff member's learning as it supports student achievement.

#### **Mentor Professional Learning**

The district will offer each mentor professional training that supports the role of mentor through training in the skills of effective mentoring and strategies for supporting new staff to be successful in their programs. This training will be managed at the district level to ensure comparable learning for all mentors. Professional learning for mentors will be selected based on the needs of the mentors and availability of experienced mentors or consultants who can support the learning needs of the mentors.

<sup>&</sup>lt;sup>4</sup> See Appendix D: List of New Staff and Mentors by Building

Elements of professional learning for mentors may include, but not be limited to, the following topics:

- The role of a mentor
- Analysis of program strategies
- Observation skills
- Strategies for conferencing and providing effective feedback
- Diagnosing and analyzing classroom or program management issues
- Problem-solving skills
- Reflective practice
- Use of student work to evaluate and inform practice
- Classroom or specific program management skills

#### COMPENSATION

#### **Credit for Professional Learning**

New staff members and mentors will be credited with professional development hours as indicated on My Learning Plan (MLP). Hours for participation in the mentoring program will be credited in June of the corresponding school year.

#### **Fiscal Compensation**

#### **Mentee Staff**

New staff members participate in the Mentor Program as a condition of employment.

#### **Mentor Staff**

Upon satisfactory completion of the Mentor Program, mentor staff members will receive a stipend based on the language in the current teacher contract. This stipend will be issued in June of the corresponding school year.

#### **MENTOR PROGRAM EVALUATION:**

In late January and early May, all mentors and new staff will be asked to complete an online survey to help the district evaluate the quality of the mentoring program. The survey will assist the district in identification of strengths and areas for improvement.

In addition, all year one new staff will complete an individual needs assessment to help personalize continual improvement.<sup>5</sup>

#### **ROLES AND RESPONSIBILITIES**

As possible, all involved will meet before the beginning of the school year with the new staff members to provide an initial orientation and to schedule activities for the new school year.

#### During the school year:

#### **New Staff will:**

- play an active role in the mentoring relationship.
- critically reflect on their own practices.
- observe experienced staff members at work.
- participate in programs organized for new staff members.
- remain open to feedback as a means of professional learning.
- attend required Mentorship Meetings.
- participate as a condition of employment in required professional workshops.<sup>6</sup>

#### The Mentor will:

- ensure a strong start to the year.
- observe the new staff member at work.
- provide program support.
- provide professional support.
- provide personal support.
- maintain a confidential relationship with the new staff member.
- maintain a comprehensive mentoring log.<sup>7</sup>
- acquire a thorough knowledge of the mentoring program.
- serve as a resource.
- attend Mentorship Meetings when possible.

<sup>&</sup>lt;sup>5</sup> See Appendix L and Appendix M: The Reflective Teacher's Self-Reflection; The Reflective PPS Member's Self-Reflection

<sup>&</sup>lt;sup>6</sup> First year elementary teachers are required to participate in a *Responsive Classroom* workshop as a condition of employment.

Second year teachers are required to participate in a *Standards Based Instruction* workshop as a condition of employment.

To optimize instructional time, the teacher should register for summer workshops whenever possible.

<sup>&</sup>lt;sup>7</sup> See Appendix K: Cortland Enlarged City School District Mentoring Log

#### The Mentor Program Committee will:

- explain the mentoring process to the faculty.
- plan/provide optional mentor training.
- plan/provide New Staff Orientation.8
- plan/provide Mentoring Program Calendar.9
- plan/provide Mentorship Meeting Schedule<sup>10</sup>
- make available mentoring resources.
- collect updated mentor/mentee lists from principals.
- plan and oversee Mentee/Mentor meetings throughout the year.
- administer, collect, and analyze Mentor Program surveys.
- update and revise mentoring program handbook.
- make appropriate recommendations to the Professional Development Committee.
- Meet with the Director of Curriculum & Instruction as needed throughout the school year.

#### The Principal will:

- establish a collegial school culture.
- ensure reasonable working conditions for the new staff.
- participate in the evaluation program according to the requirements of the APPR or PGAP plan.
- coordinate the selection of mentors.
- respect the confidential relationship between the new staff member and mentor.
- notify the Director of Curriculum & Instruction of mentor/mentee changes throughout the school year.

#### The Professional Development Committee will:

provide ongoing professional learning opportunities as identified by mentors or mentees.

# Appendix K Cortland Enlarged City School District Mentoring Meeting Log

#### **Explanation and Sample Format**

The format for log entries is standard for all new teaching and pupil/personnel staff and mentors.

The Mentoring Log page may be copied as needed throughout the year. Each new page should have the heading completed and the entries completed with:

- Names of mentor and new staff member
- Date and time of meeting
- Length of meeting
- Topic(s) discussed (Be specific about topics, but do not record details of the discussion or resolutions.)

The mentor must submit the completed Mentoring Logs to the Director of Curriculum & Instruction in order to receive compensation. If the mentor has any questions about log format or content, s/he should discuss the issue with a member of the Mentoring Committee or the Director of Curriculum & Instruction.

Mentor Logs are used to help the Mentor Committee and the district identify common themes that arise and could be addressed through professional development or other resources.

These logs are not used for evaluation purposes and are kept confidential.

Consider your own development as a beginning teacher. Describe your development using the following items. This information will not be used as an evaluative tool by anyone. The information you collect here through your own reflection will help to shape your mentor/mentee experience. The areas of expertise are the *Framework for Teaching* Domain Components. Using the following continuum, circle the number that best corresponds with where you would place your level of expertise with each component.

Please rate yourself in the following areas

- 1 =Novice -I have a general idea of what needs to be done.
- 2 = Proficient I am comfortable with responsibilities but I have room to grow.
- 3 = Expert I have reached mastery of the area and could train others or share my expertise.
