## Graphing Calculator Contract

2017-2018 School Year

Student Name	Student Grade	Calculator Number	Teacher Name
	8	CHS -	Mrs. Henry

Any student taking a credit bearing mathematics course has the option to sign out a Cortland graphing calculator for the school year. A "Calculator Contract" must be completed before a graphing calculator is distributed. Students are responsible for batteries and any damages to the calculator. The assigned graphing calculator must be returned in good condition at the end of the year or the student must pay to replace/fix it.

If a student would like to purchase his/her own graphing calculator, then a TI-84 Plus CE Graphing Calculator is recommended.

I understand that it is my responsibility to return the assigned calculator in at the end of the school year. If I do not return the above item or it is broken, then I am responsible to pay to replace the item. Students are not permitted to write on the graphing calculator. **The cost to replace a damaged or lost graphing calculator is \$120.**

Upon returning this contract a graphing calculator will be issued.
