

Enlarged City School District

# **2020-2021 SCHOOL REOPENING PLAN**

## **COVID -19 TESTING PRACTICES**

Revised 9/21/2020

## **COVID-19 Testing**

CECSD complies with CDC and DOH guidance regarding COVID-19 Testing. We do not currently require testing or antibody testing of students or staff members for attendance. Avenues for testing on a surveillance basis will be made available in conjunction with our community health partners.

Students or adults presenting symptoms aligned with COVID-19 will be required to leave campus. Completion of a COVID-19 test with a negative result or a completed period of quarantine following a positive result is required prior to return to school. Please refer to the district Contact Tracing plan for district procedures related to notification of confirmed cases.

If you need a COVID-19 test please register at a local testing site or contact your primary care provider, Guthrie Cortland Medical Center, Cayuga Medical Center Urgent Care, or other medical professional.
